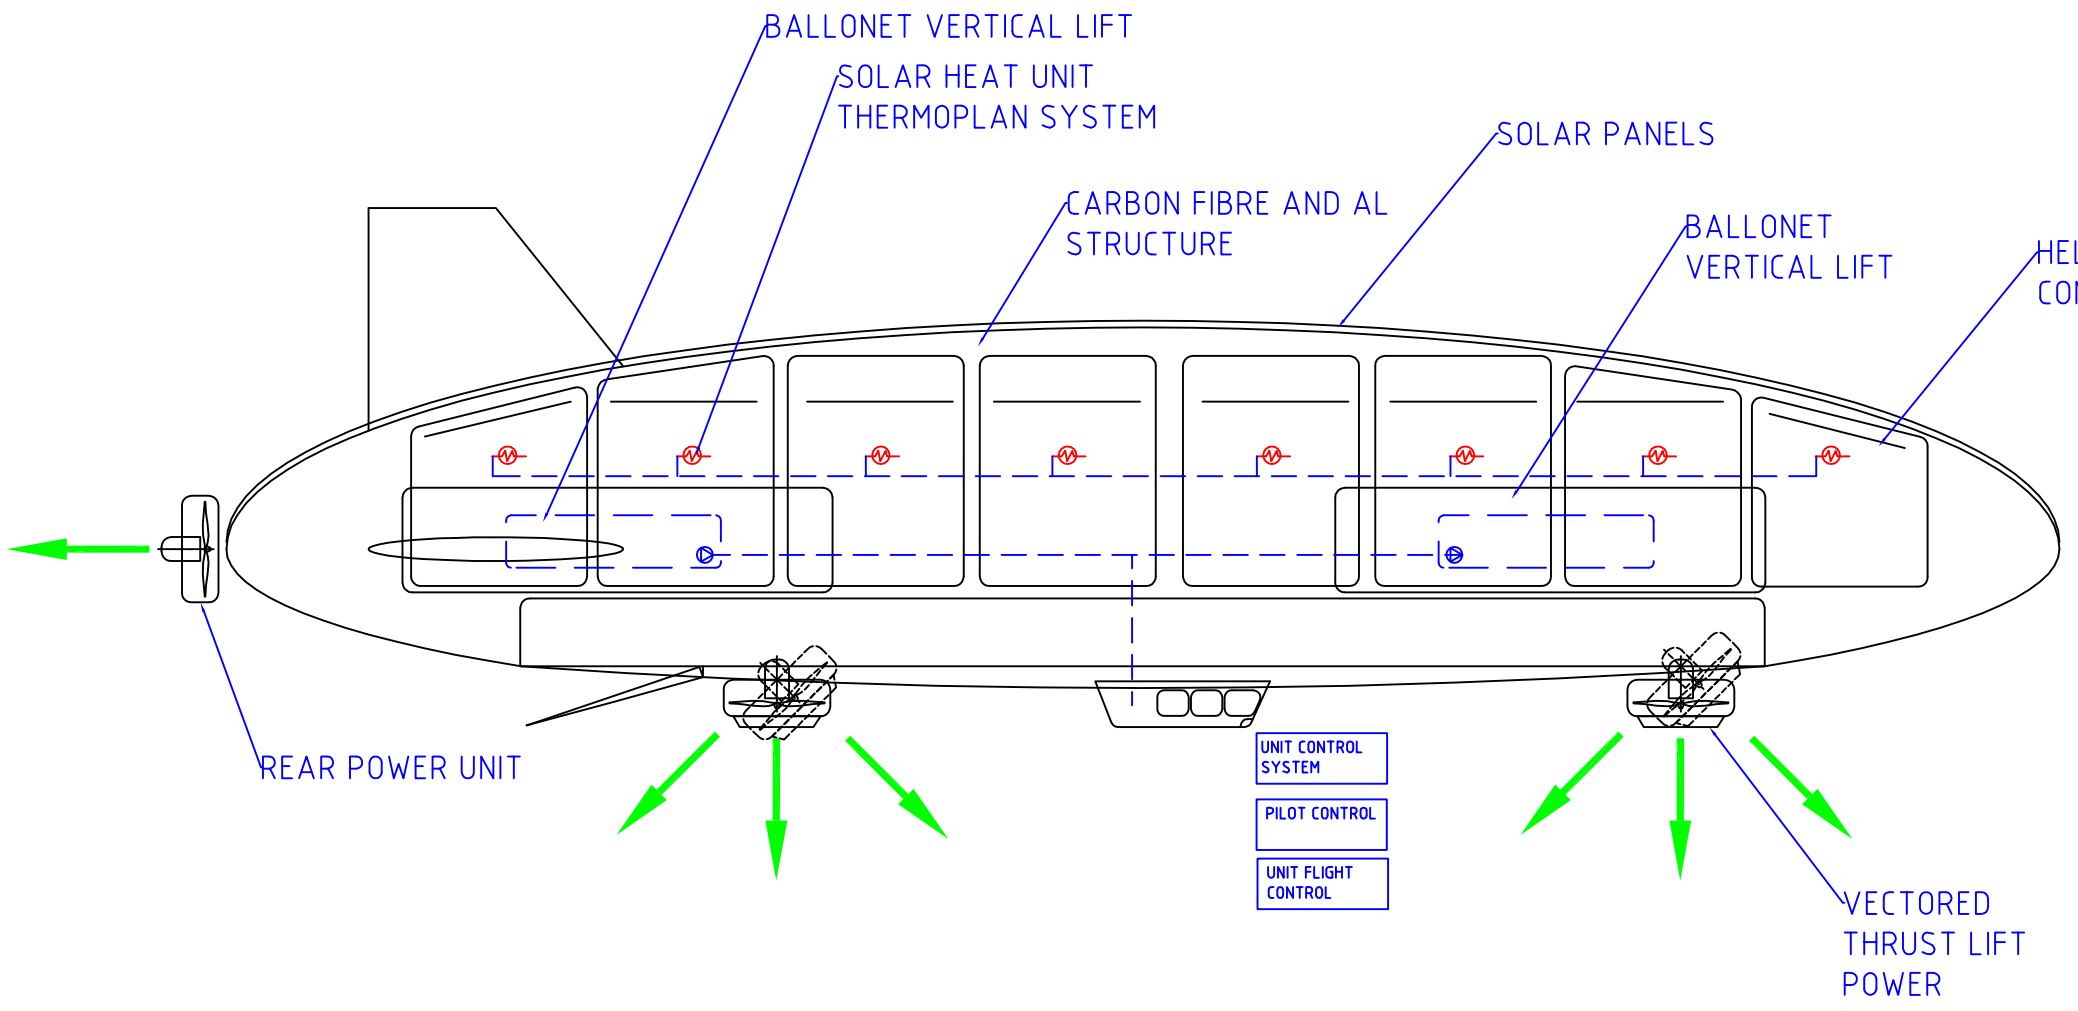
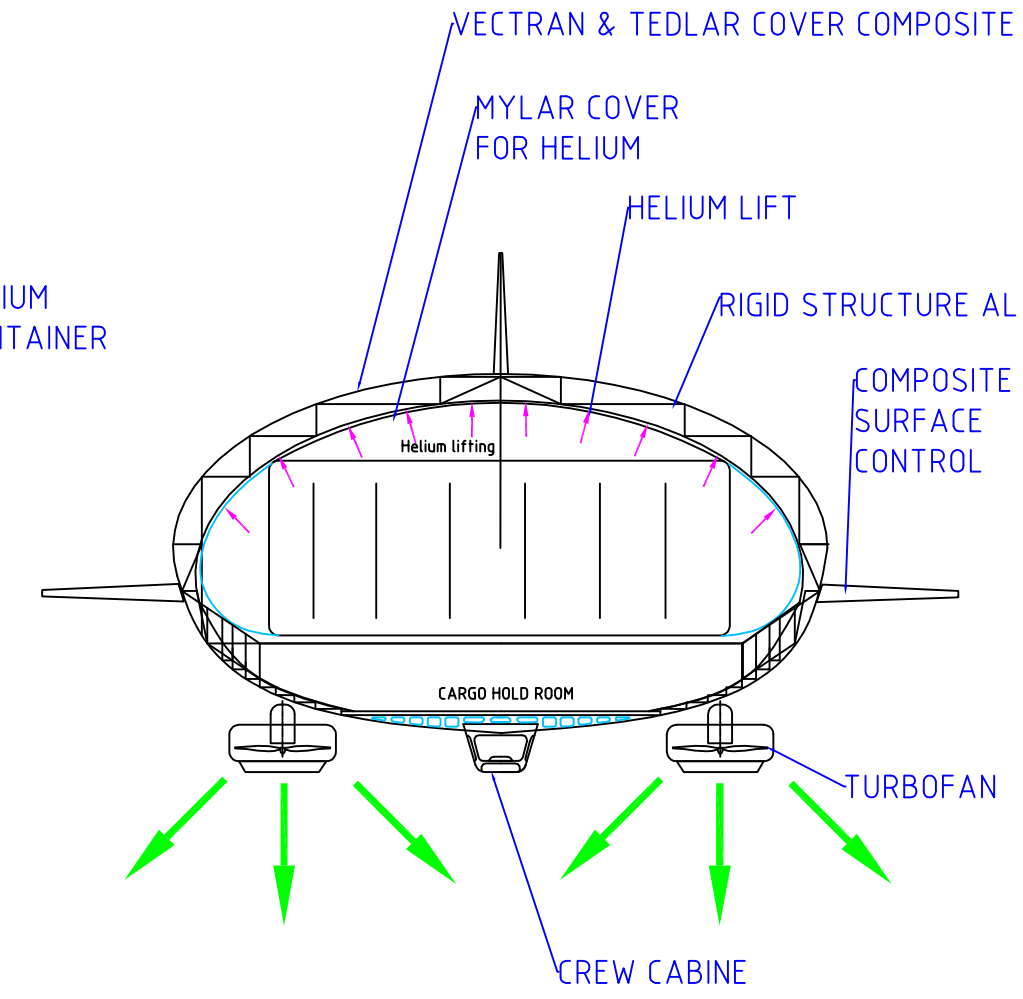
HYBRID AIRSHIP, aerostatic lift, laighter than air LTA with aerodynamic lift capabilities Vertical lift VTOL





Helium lifting capacity 0.07 lb/pie^3
Volume 1 million pies^3 = lifting force 69500 lb
Long aprox = 300 pies

FEATURES:

- Hybrid Design
- Helium/Air Valves
- Control Systems
- Control Surfaces
- Cargo Handling System
- VTOL Propulsor
- Control Station
- Mooring Equipment
- Shorter & vertical takeoff and landing

BOGOTA D.C. - COLOMBIA
